

Thank you for your interest in ARC presentations!  
It is our privilege to collaborate & share information  
with community groups, organizations, and businesses.

We offer presentations and workshops designed to foster greater understanding of autism and neuroaffirming practices. Our presentations offer clear, engaging overviews of key topics, ideal for groups seeking foundational knowledge. For those seeking a more in-depth, customized experience, we offer workshops which deliver a more comprehensive and interactive educational approach.

All of our sessions are facilitated by experienced professionals who bring both subject matter expertise and a commitment to creating impactful learning experiences. Once we receive your request, we'll follow up to discuss the details and provide pricing information. We're happy to work with you to find an approach that fits your needs and ensures the training is both valuable and accessible.

## Understanding Autism

1-hr presentation

Increase your understanding of autism and

explore the many strengths within the autistic community. This presentation will explore practical applications for universal design and neuro-affirming practices you can use to foster inclusivity and encourage a culture of respect for neurodiversity. Our learning objectives will cover a comprehensive strengths based overview of autism, sensory processing, executive function, and strategies for creating safe, welcoming, and comfortable communities.

## Autism In The Workplace

1-hr presentation

Equip your business or organization with the knowledge and tools needed to develop a truly neuroinclusive workplace. We will provide an overview of autism and neurodiversity, discuss universal design, provide examples of easily incorporated practices and explain the extensive benefits of hiring inclusively. Depending on the size and role of your team this presentation can include information beneficial to human resources, leadership teams, or your entire crew.

## Skill Building Workshops

Length Varies

In-depth training in practical support strategies using neuroaffirming approaches.

### Autism & Neurodiversity

A 2.5 hour session offering an overview of common strengths and challenges. Learn practical support strategies with opportunities for interactive discussion and Q&A.

### Building Support Foundations

A 6 hour session offering a comprehensive look into autism & neuroaffirming approaches to teaching skills, supporting regulation, and fostering resilient support teams
